Eminence Campus Drive – Problem Statement and Presentation Preparation

Dear Bheemsetty Dhanush,

Greetings from ITC Infotech India Ltd.!

With reference to the interview invitation shared earlier as part of the Eminence Campus Drive, we are sharing your assigned problem statement and the corresponding points to cover for your upcoming interview.

Title: Spam and abuse filter for comments

Problem Statement:

A cooking video platform gets 20,000 user comments a day. Some are spam links, some are abusive, and some are promotions. Two moderators cannot review them all. The platform wants AI to hide clearly bad comments and send unclear ones for human review.

Points to Cover:

1. How would you classify comments as fine, spam, abusive or unclear?

2. What should happen to each category?

3. How would you avoid hiding genuine comments by mistake?

4. How would you keep up with new spam tricks?

As part of the interview process, you are required to prepare a **3–4 slide PowerPoint presentation** based on the problem statement and the points to cover shared above. Please ensure that your presentation is ready before joining the interview call tomorrow.

Please note the following instructions:

- Your presentation must be based on the problem statement and the points to cover provided.
- Review the details carefully and prepare your presentation accordingly.
- Please do not reply to this email with queries or clarifications regarding the problem statement. You are expected to prepare your presentation based on the information shared.

Note: If you have already been placed with another organization and your placement cell has blocked you from participating in further placement processes, please ignore this email.

We look forward to your participation in the interview process.

Wish you all the best!!

Regards,
Phanindra R S
